NAUTILUS AVIATION - A ONCE IN A LIFETIME EXPERIENCE, EVERY TIME!

Welcome to Nautilus Aviation

Nautilus Aviation offers one of the best ways to see the world's wonders just outside our doorstep! Departing daily, jump on board one of our scenic flights, design a custom tour of your own or, for the more adventurous, take the controls and fly yourself! The sky is no longer your limit, it's your playground!

Nautilus Aviation began with a single Cessna 208 floatplane in 1993, operating from a historical World War II Hangar at Townsville airport. Today, after 24 years, we are proud to be one of the leading helicopter operators in North Australia - our driving force, a team of over 60 highly skilled and dedicated locally based employees.

To many locals, Nautilus Aviation is known as the company with the "red helicopters". The red helicopters are the luxurious Airbus H120, H125 and H130 aircraft, flying the skies alongside our fleet of Bell and Robinson helicopters. The enclosed 'Fenestron' tail rotor of H120 and H130 make them the quietest helicopters on the market, perfect for younger and more sensitive ears.
