Rainforest & Wildlife Self-Drive Touring Guide

Est. 1979

CROCODILE EXPRESS

UNLIMITED CRUISES
CROC PASS
DETAILS INSIDE

Crocodiles - Birds - Butterflies - Reptiles

Your Daintree River Cruise

Crocodile Express was the first wildlife cruise operator on the river in 1979. Your cruise will take you along sections of this spectacular waterway with your guide pointing out wildlife and flora along the foreshore and creeks. Our naturalist guide will interpret the importance of this amazing World Heritage location. A cruise on the Daintree River is a "must-do" activity as part of your Daintree Rainforest experience. The vessels are well equipped, comfortable and stable in all weather conditions.

Daintree River Wildlife Habitat

The Daintree is the habitat of an extensive array of wildlife many of which are endemic to this eco system only. This is also the habitat of the estuarine or saltwater crocodile seen regularly on our cruises, also look out for other reptiles, rare birds, flying foxes and beautiful butterflies. The Wet Tropics World Heritage Region is home to: 26% of Australia's frogs, 17% of it's reptiles, 58% of it's butterflies, 30% of marsupial species and 48% of it's birds. Ask about the "Croc Pass" for free return cruise visits!

The Oldest Rainforest In The World

The Daintree Rainforest is a living museum of flora and fauna dating back 250 million years. There are close to 200 species of plants which only grow in the Wet Tropics, of which about 170 have been found north of the Daintree River, with perhaps 30 of them growing only in the Daintree and nowhere else in the world. The Daintree has many excellent rainforest walks located from Mossman Gorge to Cape Tribulation for you to explore at your own leisure. Call at Daintree Visitor Information Centre for maps.

Depart from before Daintree Ferry and also from Daintree Village

Eco River Tour Guides

Our naturalist guides are real locals. They take a keen interest in the local environment and have been involved in Wet Tropics projects over the years. Their passion for the flora and fauna of the river systems reflected in their presentations on any cruise. Guides communicate with each other by radio to give you the best opportunity on sightings of wildlife along the river. The boats are stable and roomy so everyone can get up close and move around the vessel to get the best photos.

Two River Cruise Departure Points

Crocodile Express is the only operator with two different departure points along a twelve kilometre stretch of the river. This gives visitors the best opportunities to see wildlife and the diversity of this amazing eco system. From rainforest to mangroves the scenery is spectacular. The Upper Daintree section from Daintree Village is especially popular for bird watching and departures from near the Daintree River Ferry crossing offers spectacular views of Thornton Peak, rainforest and mangroves.

Exclusive Unlimited Year Cruise Pass.

Only Crocodile Express can offer visitors a free return pass on another section of this wonderful river system. If you would like to see more, be sure to ask at our office at the end of your cruise for your complimentary "Croc Pass". Proof of I.D. is required and subject to loadings on a standby basis. The Village is 12 kilometres from the ferry crossing, so there's lots to see, explore and learn about this rainforest and mangrove eco habitat. "Croc Pass" is a birdwatcher's & photographer's must have!

Daintree Tourist Information Centre

Visitors to the centre located in Daintree Village can source the best knowledge from locals in the know. From booking cruises to guided walks, accommodation, reef trips, fishing or lots of other rainforest adventures, our crew will be only too pleased to assist you discovering the best of the Greater Daintree Region. The centre also carries a great range of local arts, crafts and souvenirs. Talk to a local information consultant for the best advice and information. Open 7 days from 9.00am. **FREE! Rainforest Walk Maps**

Attraction Combos & Bird Watching

Contact our office for great combo packages. Combine your Daintree cruise with one or all of the following must do attractions and save. The Rainforest Habitat - Daintree Discovery Centre - Hartley's Crocodile Adventures. All offer free return visit passes. Specialised Birding Cruises depart from Barratt Creek daily at sunrise and sunset. Birding Guides take small groups to identify the vast array of different bird species that visit the Daintree seasonally. Call at our office for details and bookings.
